

Co-owners Brian Pithers and Brad Burwell founded Pressure Tech, LLC in 2007. With hard work they have developed a very successful company with a long list of satisfied clients.

Both Brian and Brad bring a wealth of knowledge and experience in business, which explains the tremendous growth they have realized while running Pressure Tech.

The company philosophy is to do the best job possible and to always do more than what is asked of you. This strong work ethic brings absolute professionalism to the table and has never failed to leave customers completely satisfied. In fact, all you have to do is ask and we'll provide you with a list of happy clients willing to recommend us.

Pressure Tech is a limited liability corporation partnership. We are fully licensed and insured, including General Liability Insurance, Pollution Liability Insurance, and Workmen's Compensation. Certificates can be provided to anyone requiring it for their projects. On top of this our work is always 100% guaranteed!

We offer many services at Pressure Tech, including, but not limited to, sewer jetting, concrete and tile steam cleaning, pavement cleaning and striping, interior and exterior painting, and fleet washing. Call us for a complete list of services offered or to get an estimate on your project. Our estimates are guaranteed and absolutely free at Pressure Tech, where we do our best work under pressure!
